Safety For All In Our
Changing Community

WHERE DID THE REPORT IT! CAMPAIGN COME FROM?

The Report It! campaign came out of an open community meeting organised by the Lower Ormeau Residents Action Group (LORAG) in Spring 2026. At this meeting, local people raised the fear they felt about changes taking place in the area – the state of the streets, the need for more effective policing and the need for residents to be proactive about bringing improvements to the community.

LORAG has developed a wide range of community led activities to support local people from the cradle to the grave. But community groups can't do everything. We need statutory services to do their jobs for Lower Ormeau residents too.

WHAT WILL IT DO FOR RESIDENTS?

This campaign aims to get better results for our community from government agencies by making sure that these agencies are aware of our issues and that residents know how to report. We can each do our bit by reporting problems like dog fouling, blocked gullies, anti-social behaviour and housing repairs. If we don't report our issues, agencies can say they don't know about them. Statutory agencies serve large areas, and we need to report our problems to make sure that they hear the voices of our community.

Proper reporting creates a clear record, enables scrutiny and ensures accountability. If issues are not reported, failures can remain hidden and necessary action may never be taken.

HOW WILL MORE REPORTING IMPROVE THE QUALITY OF OUR LIVES?

We each have a part to play in looking out for each other and keeping our neighbourhood safe. Service providers are responsible for many aspects of our quality of life and safety – that's what they exist to do. Our responsibility as residents and neighbours is to make sure that they are aware and have a record of our concerns. They can only carry out their responsibilities if we take responsibility for informing them through the right channels. It cuts both ways.

ACCOUNTABILITY STARTS WITH REPORTING

- Encouraging reporting of incidents or concerns actively engages those with responsibility for safety and harmony in our community and holds them to account.
- Concerns must be reported and formally recorded with the appropriate authority. Without a documented report, those responsible cannot be investigated, held accountable, or required to take corrective action.
- Prevention: by reporting incidents of concern, the organisation with responsibility can identify issues and address them before they escalate.
- Reporting of incidents or concerns creates awareness about potential risks and issues.
- Reporting small issues is important. It can prevent bigger problems occurring.

HOW TO COMPLAIN

Accountability starts with reporting. All concerns should be raised through the correct channels so they can be investigated, acted upon, and used to hold those responsible to account. Follow this process.

1. Find out which agency is responsible for the issue. There is a list of agencies in this leaflet. Check that you are writing or speaking to the person who looks after this area.
2. State the problem. Explain what has gone wrong, how it has affected you and what outcome you are looking for. Keep it short and simple.
3. Provide whatever evidence you can, e.g. photographs of litter, dog fouling or dereliction.
4. Ensure that your issue is put on the record. Put your complaint in writing and keep copies of your emails or letters and their replies. If you are using the phone, make sure that you are put through to the person responsible for the Lower Ormeau area and ask them to record your problem. Take a note of your conversation, dating it and naming the department and contact person.
5. If the agency has a complaints procedure, ask for it and follow it to give them a chance to resolve your complaint. Ask for confirmation that the agency has received your complaint, and when you should expect a reply.
6. If you don't get a response to your report, contact your political representative or the relevant Ombudsman.
